# Fencing

*Turn bare fences into marketing tools.  
Britten innovations get your brand out in front.*

**Now you see it:** Your brand or advertisers' messages displayed where everyone can get a great view.

Our FenceScrim™ does the job, transforming plain, existing fences into dazzling graphics. The secret is FenceScrim's AdMesh™ wind-permeable material. The wind flows through ... your message gets across.

The result: no unsightly wind slits, dramatically reduced wind load on your fencing, and banners that are far lighter and easier to handle than solid vinyl banners. Great for sponsors, advertisers ... and you.
